### REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: Claims 11, 14 and 15 are patentable over the prior art patents and printed publications because of the formation of the serial video data whose pulse width is adjusted by a pulse width adjusting unit in a unit increment correspond to  $1/N$  ( $N = n + 1$ ) of half the period of the clock signal, extending from one of the edges of the serial data pulse and edge of the delayed pulse selected by the delay clock selecting unit, which includes an n-stage clock signal and an n-stage delayed pulse gate that passes the delayed pulse of time specified by a timing signal specifying the time of the delayed pulse. The combined limitations are not taught by the prior art of record alone or in combination

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
